

24/01/1997

ABOUT ME

Versatile specialist with a Kyoto University Master's degree and 3 years of R&D experience at Fujifilm. Skilled in bridging wet-lab assays with data analysis (R/Linux, DEGs, RNA-seq). Trilingual in Japanese, English, and Chinese.

MORE INFORMATION

Technical Skills:

R Language

(DEGs Analysis, ggplot2)

Linux OS & Shell Scripting

RNA-seq & Microarray Pipelines

Wet-lab Assays

(PCR, ELISA, Cell Culture)

Quantitative Logic & Pine Scripting

SIMING HE (Simon)

Biomedical & Data Analysis Specialist

WORK EXPERIENCE

Clinical Diagnostic Kit Developer FUJIFILM Corporation | 2 Years

- Screened and isolated high-sensitivity, low cross-reactivity antibodies using automated single-cell picking systems.
- Operated automated single-cell equipment, executing PCR, transfection, ELISA, and protein purification.
- Cultured mammalian cells and conducted assay validation for clinical kit development.
- Presented technical R&D outcomes at internal corporate symposia and academic conferences.

R&D Intern / Assistant Researcher FUJIFILM Wako Pure Chemical Corporation | 1 Year

- Evaluated binding kinetics and dissociation affinity of candidate antibodies and antigens using Surface Plasmon Resonance (SPR) systems.
- Analyzed chemical and post-translational antibody modifications using High-Performance Liquid Chromatography (HPLC).
- Operated Cell Sorters (FACS) to isolate target cell populations for downstream assays.

Biomedical Research Intern Center for iPS Cell Research and Application (CiRA), Kyoto University | 2 Years

- Managed human organoids differentiation induction and specialized cell culture protocols.
- Participated in the engineering and validation of microfluidic devices.
- Performed qPCR experiments and transcriptomic Differentially Expressed Genes (DEGs) data analysis.
-

ACADEMIC DATA

- Graduate School of Medicine, Kyoto University Master of Medical Science | Graduated
- Faculty of Science, Kagoshima University Bachelor of Science (Biochemistry & Antibody Drug Development) | Graduated

LANGUAGES

- CANTONESE & MANDARIN (NATIVE)
- JAPANESE (FLUENT / BUSINESS)
- ENGLISH (FLUENT / ACADEMIC)

SERVICES

- TRANSCRIPTOMIC DATA ANALYSIS (RNA-SEQ / MICROARRAY)
- CUSTOM R DATA VISUALIZATION
- STATISTICAL MODELING
- PUBLIC BIO-DATABASE MINING & CURATION (NCBI / GEO)
- TECHNICAL DOCUMENT TRANSLATION & REVIEW (JP / EN / CH)
- WET-LAB BIOASSAY OPTIMIZATION & TROUBLESHOOTING
- QUANTITATIVE LOGIC
- BACKTESTING SCRIPT DEVELOPMENT
